Series 302

Jackson Creek by Lea Industries...blending relaxed, rustic styling with the distinctive character and time-proven strength of natural oak in a furniture collection for your child's room or second bedroom...offering exceptional durability and outstanding value, as well as rugged good looks.

Crafted in richly grained oak veneers and solids and select hardwoods with a "kid-ready" distressed medium brown oak finish, each Jackson Creek selection is constructed to stand up to the demanding use of a young child's room and grow up with your child. Throughout the collection, such practical features as thick, solid oak drawer fronts with simple round knobs add ruggedness and durability. Corners are slightly rounded to give them a time-worn look and make them gentler in the event of youthful mishaps. Case pieces, such as dressers, chests and desks, also feature thick, oak framed tops to add durability. End panels and back panels of hutches offer a "planked" effect to enhance the rugged, casual look.

With an array of practical items for storage and study/computer function, and an appealing selection of bed choices with storage or trundle options, you'll find that Jackson Creek makes itself at home in a variety of room settings, appealing to kids from toddler to young adult. Many of these selections will also be ideal for your guest room, either now or in the future, when your child has grown up and moved away!

Review the selections in this catalog with Lea's assurance that, whichever pieces you select, Jackson Creek will be an especially wise investment, bringing casual styling and practical value to your child's room...or anywhere long-lasting durability is a consideration.

The story is....**STORAGE!!!!**

This practical Jackson Creek twin bookcase bed configuration provides all the practical drawer storage of a conventional bed, chest, dresser and two night stands. Complete the setting with a three drawer desk, hutch and chair and you've met all your child's sleep, study and storage needs...in a compact arrangement that fits nicely into even the 9' x 12' kids' bedrooms of today's homes!
